This proposal is to revise the current NUR 342, Complex Adaptive Responses by Clients to Stimuli to NUR 352/353, Complex Adaptive Responses by Older Adult Clients to Stimuli. A clinical laboratory will also be added to the course. S. Czerny noted the resource list did not meet the UCC criteria, and many of the resources were dated. Current #: LAS 05118
Course: Program Change: Bachelor of Science in Nursing (Effective Fall 2006)
Proposal: Proposing revisions to the current curriculum. Specifically to decrease the number of credits required in General Education and to increase the number of credits in the Major Program.
Comments: I. Prokup, S. Prestoy, and B. Hanna were present to speak to the course. V. Brancato voiced her concern with the Nursing Department on the deletion of Speech from the General Education Core for nursing students. Nursing argued that since their student population consists of transfer students, most students have adequate speaking skills and/or courses. In addition, the Passport agreement of the PASSHE necessitated reducing the required number of general education credits for transfer students. The UCC recommended 3 credits be moved from the free electives and put back in the SPE core General Education requirement. The nursing students will be required to take a course with the SPE prefix, but not limited to SPE 010. It was moved by D. Rogers, and seconded

by D. Lynch to amend the program to transfer three credits from free electives to General Education requirements: Speech. The requirement would be for any SPE course, not necessarily SPE 010. MOTION PASSED.

It was moved by D. Lynch and seconded by K. Kresge to consider and approve this proposal as amended. MOTION PASSED.
